## Ancient angels as key to modern society

**Abstract :** Le projet Marie-Curie "L'invention des anges dans l'Antiquité tardive: théologie et esthétique (ALATA)" associe textes (en grec ancien, copte, syriaque) et images (principalement des mosaïques antiques) pour explorer les origines de la figure de l'ange chrétien. Cette perspective jette une lumière nouvelle sur la question essentielle de la représentation, ou : comment rendre l'invisible visible ?
