Start by marking "The Game: One Man, Nine Innings, A Love Affair with Baseball" as Want to Read: Want to Read saving... Want to Read. A game between the Iowa Cubs and the Nashville Sounds provides the lens through which the author explores the game of baseball and the meaning of life, in a testament to the everlasting wonder and magic of a great American pastime. Get A Copy. Amazon. So I learn there are nine innings in a baseball game. I grew up English so I started this novel knowing very little about baseball -it includes a bat, a ball, and the need to run, but it's not cricket. Still, the narrator, Backstop, describes his sport and his life in this book in a way that makes me care about him and the game. Sometimes it's like listening to the guys in my family discuss football (soccer to the uninitiated). The reader follows the love story, as promised, while following the game. It's an important game, an important love too, and either could be lost; commitment, trust, faithfulness and coping with betrayal. On the field there's the player who always annoys, but perhaps still has true advice to give. Off the field there's hope. So now I know a little more about baseball, and a little more of love.
