

South African red data book - large mammals

Skinner, JD; Fairall, N; Bothama, J

URI: <http://hdl.handle.net/10204/2214>

Date: 1977-11

Abstract:

Data sheets are provided for 22 threatened South African large mammals, one exterminated (Lichtenstein's hartebeest), eight endangered (cheetah, hunting dog, dugong, Cape mountain zebra, black rhinoceros, tsessebe, roan antelope, suni), one vulnerable (oribi), nine rare (leopard, serval, brown hyaena, aardwolf, bontebok, sable antelope, blue duiker, red duiker, Sharpe's grysbok) and three special cases (elephant, Hartmann's mountain zebra, hippopotamus).

Organization(s): South Africa, National Programme for Environmental Sciences. Abstract: Monographic Series: South African National Scientific Programmes report. Monographic Series no.: no.018. 2000. The Eskom Red Data Book of Birds of South Africa, Lesotho and Swaziland. BirdLife South Africa, Johannesburg, South Africa. Bartholomew, G.A., F.N. White and T.R. Howell. Smithers, R.H.N. 1986. South African Red Data Book – Terrestrial Mammals. South African National Scientific Programmes Report No. 125. Taylor, C.R. 1969. The 2016 Mammal Red List of South Africa Lesotho and Swaziland forms part of a series of national Red List projects recently completed by SANBI and partners, which include butterflies, reptiles and birds. The revision was made possible by over 400 experts who provided their data and expertise to inform each assessment. It was funded via the South African National Biodiversity Institute (through a grant by the Norwegian Government that aims to build capacity in the southern Africa region for undertaking assessments), the Endangered Wildlife Trust, the Department of Environmental Affairs, E Oppenheimer & Son and De Beers Group of Companies. Please click on the orders below for the full species assessments from the 2016 Mammal Red List. Afrosoricida.
