The Inkling language is a fictional language spoken primarily by Inklings , and other characters as well, such as some Octolings and Jellyfish . Most, if not all, of the game's graphics and voice clips are in Inkling. While many have tried to decipher the language, nobody has been able to make any real progress toward this goal. The structure, vocabulary, and grammar of the language are stipher like The Legend of Zelda 's Hylian , Inkling is not translatable as it is pure gibberish.
