Description/Summary
Scott Lacy is a co-editor and a contributing author, "Moral Fibers of Farmer Collectives: Combating Poverty with Cotton in Southern Mali."

Book description: The ninth edition of Applying Cultural Anthropology: An Introductory Reader is a collection of articles that provide compelling examples of applied research in cultural anthropology. In this age of globalization and increased cultural intolerance, the basic messages of public anthropology are more important than ever. This new edition offers ten new readings that refer to contemporary social issues such as religious belief, work and family, social class, food production, relationships, consumerism, the effects of climate change on culture, and globalization.

Cultural anthropology is one of the four subdisciplines of anthropology. The other subdisciplines include biological anthropology, archaeology, and linguistic anthropology. Some anthropologists include a fifth subdiscipline, applied anthropology, although other anthropologists see applied anthropology as an approach that crosscuts traditional subdisciplinary boundaries rather than as a subdiscipline itself.
