Abstract (summary):

Streaming involves dividing students at varying levels of education into distinct “streams” or “tracks”, each with its own set of future academic options. This qualitative study investigated the experiences of youth and their families in Mornelle Court, Scarborough, Ontario. Through bringing youth voices to the fore, this thesis addresses a critical research gap. Overall it was found that: (i) the streaming placement of these youth was not determined by their desire to pursue a specific profession; (ii) the youths and their parents did not have adequate information on streaming; (iii) there were strained relationships between students of different streams; (iv) for youths who attempted it, moving from less to more academic streams was not possible; and (v) there were clear race and class biases affecting stream placement. This study serves as a valuable resource for policymakers, educational practitioners, and the public at large.

The Scarborough College Prep School is an engaging and safe preparation for secondary school as well as a top quality primary school education. Pupils in the infants school start their specialist lessons by continuing their French lessons and embarking on new adventures with ICT lessons and music lessons. From Year 3, all pupils have sports lessons daily and enjoy more lessons taught by subject specialists, including maths and sciences. Visit our Prep School. Senior School. With the International Baccalaureate Diploma Programme as the educational inspiration, the senior school focuses heavily on the Ontario Court of Justice is committed to ensuring that it remains available to address urgent criminal and family justice matters despite the challenges presented by COVID-19 (coronavirus). The safety and well-being of the public and all court participants – including the judiciary, court staff, litigants and witnesses – remain a top priority. This year, the Ontario Court of Justice, the busiest in Canada, will deal with approximately 500,000 adult and youth criminal charges, hear millions of provincial offence matters such as traffic tickets, and serve more than 20,000 families. To deliver the highest level of service to the people of Ontario, we are committed to making our Court open, accessible and responsive to their needs. Publish Ontario Secondary School Literacy Test (OSSLT) results? Results are available on the Education Quality and Accountability Office (EQAO) site. Publish its admissions policy? Enter into contracts with parents regarding fees, refunds and other policies? Have a procedure for resolving complaints by parents and pupils? 1. List of Private Schools on the Ministry of Education's website – A link to the Ontario Open Data list of all private elementary and secondary schools currently operating in Ontario is available below. The Minister of Education has the sole authority to determine the courses of study that a student must complete in order to obtain the OSSD.
