

General Physics -1
PHYS 201
University of South Carolina
Main Campus
Session: 08/18-12/02'11

Professor: T. Datta

Office: PSC 501/502 (777-7669) 12:300-1:30 pm MW or by appointment

Internet: LonCapa

Contact: datta@sc.edu (NB: grades will be discussed only in person but not by email/phone)

Class: PSC 002, 11:15 am-12:05 pm, MWF

Preq: MATH 115/122 or equivalent

Recitations: PSC 208 (time per section)

Text Book: Jones & Childers

Topics: Ch. 1-15 will be covered

Final Exam: 9:00 am, in class, 9th Dec 2010

Tentative Test dates: Sep.2, Test#1; Oct.7, T#2; Nov.18, T#3

Course Description:

- This is an algebra based, introductory mechanics and thermal physics course.
- University policies regarding attendance will be applicable.
- The student will need the math competence at the level of the text book.
- The student will be expected to solve problems on their own from the text book.
- Students knowledge and skills have to be demonstrated in quizzes and tests as well as in class presentations
- Participation in class discussions and in questions & answers sessions will be required.
- Effort by student is expected but not graded.

Learning outcome & goals: After successfully completing Phys 201 the student will learn how to critically analyze the basic principles, solve problems and compute numerical answers.

Home work: Algebra based qualitative & quantitative problems via LONCAPA .

In class work: Question & answers, working out examples and several pop quizzes.

Tests & Exams: 3, 1-hr tests, quizzes + Final (ID s may be checked @ tests).

Grading: To pass this course the student will have to show satisfactory performance in all the components of the course, viz in class, home work, and testing. Grade will be based on tests (4x10= 40%), Electronic HW 40 % + Quiz & in-class work 20%

Scale: Standard 10 pt, viz., 100-90% = A, 89-80% = B, etc.

- Through out the session test dates will be chosen in class after open discussions.
- Attendance may be taken at random for record keeping. More than Three unexcused absences may cause loss of grade.
- Makeup tests only with written medical or family excuses.
- Requests for incomplete grade “I” has to be made in writing and conditions negotiated should be written down and agree upon. Verbal will not be enough.
- Request for recommendation letters has to be supported with Students resume.

A Tentative Fall 2011 Calendar for Phys 201

- Consult Registrar’s web page) for academic dates
- Last W” date Aug 24 & “” date Oct 13

<u>Week:</u>	<u>Chapters:</u>	<u>Comments:</u>
#1- 15 Aug	1	First lecture: Intro
#2- 22 Aug	2, 3	Units, Motion,
#3- 29 Aug	3	Vectors, 2-d motion
#4- 05 Sep	4 & 5	Laws of motion, Circular motions
#5- 12 Sep	5	Energy
#6- 19 Sep	6	Momentum
#7- 26 Sep	7	Gravity
#8- 03 Oct	8	Rotation-Oct 8 mid pt,
#9- 10 Oct	9	Solids & fluids
#10- 17 Oct	10	Thermal phys Fall break Oct 20 &21:
#11- 24 Oct	11	Thermal energy
#12- 02 Nov	12	Thermodynamics
#13- 07 Nov	13	Vibrations & Waves
#14- 14 Nov	13	Sound
#15- 21 Nov	14	Sound (Nov 25-29, Thanks giving break)
#16- 28 Nov	15	Finals prep

PHYS-201L. College Physics I. College of Arts and Sciences Syllabus. Course Information. Course Description. This is the second course of a two-term algebra based lecture and laboratory sequence intended for non-physics majors, PHYS-201L and PHYS-202L. The Physics I Lab, may be taught by a different instructor than your lecture. The laboratory is administered independently and is worth 25% of your grade. Please see the instructor for your lab section for further information. Please note, these tutorials are intended for the 100 level general education courses, but tutors may be able to help physics 201 students on a second priority basis. Additional Information. Electronics Policy. Dear Students, if you want a revision for your final exam paper, please write your name to Secretary of Physics Dept. Deadline is 15 Jan 2020, 5pm. Butunleme Exam Date/Time/Place: 23 Jan 2020 Wed / 10:20 / Physics Dep. University of Gaziantep - Department of Engineering Physics (2006 - 2020). General Physics I " PHYS 201. CG " Section 8WK " 11/08/2019 to 04/16/2020 " Modified 07/28/2020. Course Description. A study of mechanics, gravitation, waves, sound, heat, light, electricity and magnetism, optics and modern physics from a non-calculus perspective. Prerequisites. MATH 121 or MATH 122 or MATH 126 or MATH 128 or MATH 131. Rationale. This course and PHYS 202 provide a basis for further study and careers in all the sciences, particularly the fields of Biology, and Medical and Health Sciences. Measurable Learning Outcomes. Upon successful completion of this course, the student will
