Human Fertilisation and Embryology: Reproducing Regulation

Horsey, Kirsty and Biggs, Hazel, eds. (2006) Human Fertilisation and Embryology: Reproducing Regulation. Biomedical Law & Ethics Library. Routledge Cavendish, London, 272 pp. ISBN 978-1-84472-090-3. (The full text of this publication is not currently available from this repository. You may be able to access a copy if URLs are provided) (KAR id:1830)

Abstract

Relevant to students, academics and practitioners across the globe, this original volume highlights contemporary issues associated with assisted reproduction and embryology and critically analyzes the law surrounding human reproduction in the light of case law and technological developments since the Human Fertilisation and Embryology Act (HFE Act) Act was passed in 1990.

Tackling issues from an interdisciplinary perspective, the authors identify and evaluate areas that have provoked intense public and academic debate as well as those where further or renewed regulation is needed. Focusing primarily on the legal and ethical issues involved in regulating this area in the UK, which is at the forefront of developing legislation in this area, this book has international relevance as many countries have used the UK as a model for their own legislation.

This text is suitable for a broad range of readers, including legal academics, law students and practitioners interested in the areas of medical/healthcare law and ethics, bioethics and moral philosophy, family law, sociology and reproductive medicine and genetics.

Item Type: Edited book

Subjects: K Law

Divisions: Faculties > Social Sciences > Kent Law School
