The course is 51 lectures and is a total of approximately 2.6 hours long. We recommend doing one session per day. Who this course is for This grammar is in the tradition of the Quirk family of grammars, such as the work of Huddleston, Burton-Roberts, Aarts & Wekker, Quirk, Greenbaum, Leech, and Svartvik whose work in turn is based on a long tradition of grammarians such as Jespersen, Kruisinga, Poutsma, and Zandvoort. However, it also uses the insights from generative grammar. A clear distinction is made between lexical and functional (here called grammatical) categories. English language -- Grammar. Publisher.
