Center for Medicine and Public Health. Center on Patient Safety. Center for Rural Health Research & Policy. Area Health Education Center. Autism Institute. Center for Behavioral Health Integration. Center for Brain Repair. (2008). Journal of Autism and Developmental Disorders. Abstract: The present study extended the findings of Watt et al. (J Autism Dev Disord 38:1518-1533, 2008) by investigating repetitive and stereotyped behaviors (RSB) demonstrated by children (n = 50) and typical development (TD; n = 50) matched on developmental age, gender, and parents' education level. RSB were coded from videotaped Communication and Symbolic Behavior Scales Behavior Samples (Wetherby and Prizant 2002) using the Noldus Pro Observer video software. May 2008.
