Instructor Complimentary Copy Request Form

Instructors Desk Copy Policy:
Quintessence Publishing USA will provide desk copies to instructors in the US and Canada. Instructors in the rest of the world should contact their nearest Quintessence office.

- Desk copies will be provided to any instructor who has adopted a text for a course.
- Review copies also can be provided to instructors who would like to examine a text for course adoption. These review copies will be provided at the publisher's discretion, and only selected titles are available for this purpose. Where you see a link on the book's web page, review copies are available on a complimentary basis.

Except for one chapter, these endodontic surgery. Ultimately, the primary goal in end- questions were developed by two endodontists not odontics is to preserve the natural dentition. Root canal involved in the actual writing of the chapters, our belief treatment is a well-tested procedure that has provided being that having questions asked by people independent pain relief and has restored function and esthetics to of the text itself adds additional value to the questions: patients. A This DVD includes a video collection of endodontic procedures that was produced at Loma Linda University and interactive review questions for each chapter. This companion to the popular book Practical Lessons in Endodontic Surgery offers expert guidance to clinicians who have limited experience in the
nonsurgical procedures involved in root canal therapy. Synthesizing the latest clinical concepts and technologies with tried-and-true traditional treatment methods, it introduces readers to the challenges associated with nonsurgical endodontics and delivers realistic solutions in a clear, step-by-step, "lesson-based" format. Each of the 42 lessons offers useful, workable, and, above all, practical information and recommendations covering a specific ENDODONTIC SURGERY. Steven G. Morrow and Richard A. Rubinstein.

HISTORICAL PERSPECTIVE. The stimulus to form the American Association of Endodontists was in part the result of endodontic pioneers joining in mutual support to develop scientific evidence for their concepts. The results of scientific investigation and the clinical application of the techniques and concepts developed during the second half of the twentieth century represent the basis of what is known and will be practiced into the twenty-first century. However, endodontic surgery is dynamic, and it is imperative that scientific investigation continue; concepts, techniques, and materials used in endodontic surgery must be
