Kathy Charmaz presents the definitive guide to doing grounded theory from a constructivist perspective. This second edition of her groundbreaking text retains the accessibility and warmth of the first edition whilst introducing cutting edge examples and practical tips.

This expanded second edition:

- explores how to effectively focus on data collection
- demonstrates how to use data for theorizing
- adds two new chapters that guide you through conducting and analysing interviews in grounded theory
- adds a new chapter on symbolic interactionism and grounded theory
- considers recent epistemological debates about the place of prior theory
- discusses the legacy of Anselm Strauss for grounded theory.

This is a seminal title for anyone serious about understanding and doing grounded theory research.

Grounded theory is introduced as an inductive, comparative methodology that provides systematic guidelines for gathering, synthesizing, analyzing, and conceptualizing qualitative data for the purpose of theory construction. The founders of grounded theory, Barney G. Glaser and Anselm L. Strauss, offered the first explicit, codified statement of how to analyze qualitative data. The intellectual traditions of each of its founders are discussed. Strauss brought Chicago School pragmatism, symbolic interactionism, and field research to grounded theory and Glaser's training in survey research g Constructing Grounded Theory: A Practical Guide through Qualitative Analysis (Introducing Qualitative Methods series). Kathy Charmaz. 4.7 out of 5 stars 64. Paperback. 28 offers from \$18.27.Â Kathy Charmazâ€™s new edition of her classic text on developing grounded theory is an invaluable resource for qualitative and mixed methods scholars. Her formulation of grounded theory analysis is remarkable for its eclectic synthesis of what have been contentious approaches and for its clear connections to the variety of qualitative data analysis methods. I have used Dr. Charmazâ€™s work to teach both general induction and specifically grounded theory methods.
